

USB Port Locks

Model number: **K67718US** - USB PORT LOCK WITH BLOCKERS

Model number: **K67719US** - USB PORT LOCK RECTANGULAR WITH CABLE GUARD

Model number: **K67720US** - USB PORT LOCK SQUARE WITH CABLE GUARD

Reduce the risk of data leakage, data theft and unauthorized uploads with a software-free solution that physically blocks USB ports from unauthorized access. The Kensington USB Port Lock with Blockers has the ability to block multiple adjacent ports with one lock and allow continued secure use of authorized USB devices.

FEATURES

- USB lock prevents unauthorized data transfer through USB ports, reducing the risk of data leakage, data theft, computer viruses and malware by physically locking and blocking the USB Ports.
- Just plug into the USB port and push the button to lock. No technical experience necessary.
- One USB Port Block blocks a port adjacent to a USB Port Lock
- A USB Port Block used with a single USB Port Lock prevents access to adjacent ports with either vertical or horizontal orientation
- If you already have encryption software in place, the added layer of physical security is additional insurance against data theft
- Physically protects valuable data without the complication, installation, maintenance, and upgrade costs of software
- Stop thieves before the start with a visible sign that you're being protected

SPECIFICATIONS

- One USB Port Lock required for each port block used
- Available keyed alike to meet corporate and individual needs
- USB Port Lock: Die cast zinc alloy / metal with ABS housing
- USB Port Block: Steel with zinc galvanized finish

WARRANTY

USB Port Lock with Blockers is backed by the Kensington Limited Lifetime Warranty.
