

# Think Storage Products

## Why Think Storage Products?

ThinkCP's storage solutions experts can help you decide which storage systems are best suited for your unique requirements. Our experts will configure and test each storage solution based on your specific industry/user requirements, software applications and operating system environments. Every storage solution is built using premium quality components then configured and tested in our ISO 9002 Quality Certified facilities. From external "Fire-n-Ice" FireWire drives to fully integrated SAN and NAS solutions, we have products for every storage need.

## Complete Storage Solutions

Whether you're looking for removable or external drives for existing systems or complete JBOD, RAID, SAN, NAS or other file storage and retrieval systems, Think has the right solutions for all of your storage needs. And Think provides solutions for every hardware platform including PC, Mac and most proprietary workstations and servers.

## Product Partners

Think Storage Products is now a value added distributor and integrator of StorCase Technology storage solutions, our premiere products partner. As an authorized distributor of StorCase Technology solutions, ThinkCP™ provides customers with an enormous selection of proven, high quality custom storage solutions to handle a wide variety of removable drive, JBOD and RAID requirements. StorCase backs their quality reputation with product warranties of up to 7 years. ThinkCP™ also works with a select handful of other industry hardware and software OEMs to develop ruggedized, high end RAID, SAN and NAS solutions for complex and heterogeneous network environments.

## What Are The Advantages to Think Storage Products?

- Configurations for virtually every hardware platform, software OS and network environment.
- Total Custom configured SCSI & Fibre solutions ranging into the Petabytes.
- Tape Back Up storage for all platforms, operating systems and most popular tape formats including AIT, DDS, DLT and LTO. Ask us about tape libraries and other NLS solutions.
- Storage components including fault tolerant active/active or active/passive controllers, redundant power supplies, redundant fans, hot swap canisters and other storage peripherals.
- Internal fixed and removable drives for Apple, Compaq, Dell, IBM, HP, SGI, Sun and other popular graphics, rendering and imaging workstations.
- Custom storage products and solutions expertise for Apple - tested and approved for Apple OSX, OS9 and Appleshare IP. ThinkCP™ is one of the few solutions providers in the industry with genuine Apple expertise.
- Our products and solutions are covered under some of the industry's most extensive warranties, including storage solutions incorporating StorCase Technology with warranties for up to 7 years.
- ThinkCP™ Technologies is an ISO 9002 Quality Certified Company.
