

# Think Computer Systems & Think Build-To-Order

**Think** now builds complete computer systems designed for everything from home and business applications to high-end enterprise server and workstation environments. All Think Computer Systems are configured in our ISO 9002 certified facility using industry standard, premium quality products to ensure consistency and compatibility in all computing environments. You can choose from any of our pre-configured systems, or have us build systems according to your specific requirements under our Think BTO (build-to-order) custom computer program. Each unit is covered by our standard one year parts and labor warranty and may optionally be upgraded to 1-3 years of on-site coverage under our national on-site service program.

- **ThinkTank "IQ" Systems™ - Enterprise & Mid-Level Solutions**

ThinkTank IQ Systems from Think Computer Products feature the latest in high-end server, workstation and cluster-based technology solutions built in Think's ISO 9002 Quality Certified facilities. ThinkTank IQ Systems are among the world's most powerful, performance driven, quality proven computing solutions at a fraction of the price point you might expect. And to improve on perfection - ThinkTank IQ Systems can be modified to suit your exacting specifications, whether you need a minor memory upgrade, a custom engineered enclosure or an extended five year on-site warranty – ThinkTank IQ can do it.

- **ThinkPower Systems™ (Entry & Mid-Level)**

ThinkPower Systems™ are quickly becoming the systems of choice among customers looking for corporate workstations, client office solutions, home systems and even gaming platforms. ThinkPower Systems are also ideally suited for many essential departmental and standalone server applications. Every unit is manufactured in our ISO 9002 facilities using industry proven, quality components to help ensure guaranteed performance and compatibility. We customize each system to meet your specific requirements and provide optional on-site warranties ranging from 1 to 3 years.

- **Think Mobile Computing Solutions**

Looking for an affordable, quality built notebook that won't break the bank? Or maybe you're in need of a durable yet portable lunchbox server that's built to take a beating? Perhaps you would prefer to wear your portable solutions? Take a look at the latest in mobile computing solutions built using industry proven, quality components and backed by Think Computer Product's standard and optional warranty programs.

- **Think BTO Components Shop – Third Party Brands**

Think now partners directly with the industry's leading OEMs and developers to provide the most popular quality components, upgrades and software. Whether your building solutions from scratch or simply in need of upgrade and repair components, your best answers are right here in Think's BTO Shop.

- **Think On-Site Warranties**

The Think On-Site Warranty program provides optional on-site warranty coverage from 1 to 3 years and is available on all Think Computer Products built computer and storage solutions.

\*Note: All Think Computer Systems and systems built by Think Computer Products are covered by our one year standard parts and in-depot labor warranty. Extended parts warranties are included through the component manufacturers ranging from 1 to 3 years. Optional on-site nationwide warranties are available for up to three years. Please check with your Think representative for additional information on our national on-site warranty programs.
