

## Products At A Glance

### • Think Storage Products™

Whether you're setting up a full scale SAN for storing and retrieving mountains of information - or - if your needs are as modest as a simple storage drive, ThinkCP has your solution. ThinkCP™ provides all forms of storage and media including workstation drives, canister drives, JBOD, RAID, NAS or NLS systems utilizing hard disk, tape, CD/DVD or magneto-optical media. At ThinkCP, we combine hardware and software from the industry's leading manufacturers and developers in creating both "ThinkCP Brand" and third party integrated solutions best suited for the needs of the customer. For more complex requirements, ThinkCP's Storage experts will help design, configure, test and implement well structured, cost-effective, quality storage solutions designed to grow with the needs of your organization. Whatever your storage needs – think "ThinkCP".

### • Think Computer Systems™

ThinkCP now offers two distinct lines of computer systems; the entry level ThinkPower Systems for general office & entry-level server applications, consumers, gaming enthusiasts, and; ThinkCP's high-end ThinkTank "IQ" Systems featuring enterprise server solutions, cluster-based systems and the relentless power of cutting-edge, dual and multi-processor based workhorses. All Think Systems are built in our ISO 9002 Quality Certified facilities using either AMD or Intel technologies and a select handful of other industry-proven components to ensure consistent quality, reliability and performance in all environments. Now you can get the industry's best quality systems, service and support – featuring the "ThinkCP Label" - and a smaller price tag.

### • Think BTO Computer & Storage Components

ThinkCP now provides customers with thousands of high-quality, industry proven computer and storage upgrades and components. Our BTO (Build-To-Order) partners featured in the Think BTO Shop have helped us to create a wide selection of cost-effective, quality components for building your own solutions. Choose from the industry's crème d' la crème, featuring a full line of products from AMD, ASUS, DISC Inc., Intel, Maxtor, Overland Data, StorCase Technology, SuperMicro, Tyan and more...

### • Think Memory Products®

Think memory is available in all configurations for workstations, servers, desktops, laptops, printers, handheld devices, network routers and other electronic devices. ThinkCP offers a full line of memory components for dozens of computer and peripheral manufacturers, such as 3Com, Apple, Canon, Cisco, Compaq, Dell, Gateway, Hewlett-Packard, Hitachi, IBM, Intel, NEC, Silicon Graphics, Sony, Sun Microsystems, Toshiba and more. All memory products carry a lifetime warranty.

### • Think PerfectPix – CF, SM, MMC & SD Flash Technology

Think Perfect Pix™ digital media cards are the ideal solution for today's digital cameras, palmtops, PDAs, MP3 players, smart cellular phones, digital voice recorders and other popular electronic devices. Utilizing the highest quality components available, our products offer industry leading read/write speeds and compatibility with all of today's professional and consumer electronic devices. All Perfect Pix digital media cards are backed by an one year warranty and are the choice of many of today's top pros.

# ThinkCP™ Products Overview

## Products At A Glance

### • Think PC Cards (PCMCIA)

ThinkCP™ provides a complete line of PC Cards for a variety of applications, including SRAM, Linear Flash, ATA Flash, PCMCIA Type III Hard Drives, 56K and ISDN Data/Voice Modems, Ethernet 100BT and 10BT Network Cards, Multimedia MPEG Cards, Sound Cards, SCSI Host Adapters, CD-ROM/PCMCIA Kits and Desktop PC Card Read/Write Kits.

### • Think Networking Products®

Think Networking Products includes ThinkCP's lineup of networking cards, hubs, switches and "network-in-a-box" kits primarily developed for the needs of small businesses, SOHO users and on-line "head-to-head" gaming fanatics. With Think Networking Products, it's easy to upgrade your existing network or set-up a new network from scratch. All Think Networking Products are compatible with today's most popular network operating systems, including current versions of Microsoft Windows, Novell & Linux. Think Networking Products come with an one year warranty and are guaranteed to perform to form, fit and function.

### • ThinkCP™ Flat Panel Displays & Monitors

ThinkCP now produces some of the worlds best performing, best looking, quality monitors and LCD flat panel displays at aggressive consumer market pricing. Do you doubt it? From 15" through 21" - standard monitors and flat panel displays with the richest features, crispest images and brightest displays – ThinkCP is the new choice in display technologies.

### • Think On-Site Warranty Program

ThinkCP now offers extended and on-site warranties for all "ThinkCP Brand" and 3rd party product lines purchased through ThinkCP. Choose from basic on-site through premium support programs according to your needs. For additional information on our flexible support programs, please check with your ThinkCP Sales Representative.

\*Note: On-Site Warranty is optional depending on customer requirements. Systems sold without on-site warranties will be discounted accordingly. All systems include a standard one year parts and labor warranty through ThinkCP. Extended parts and labor warranties are included through component manufacturers. \*\*Note: All components used in building custom computers within the ThinkCP BTO Program must be approved by ThinkCP. Components must be industry standard and meet with ThinkCP ISO 9002 testing requirements. These measures are required in order to ensure consistent quality control and customer satisfaction.
