

# [ Think Headtrip™ - Quickstart ]

1. Plug the Headtrip™ into your system using the included USB Xfer/Power cable.(Note: **DO NOT DISCONNECT THE DEVICE BEFORE CLOSING THE HEADTRIP ICON** located in the lower right hand Windows Task Manager bar. **(Failure to do so may cause damage to the Headtrip™ and void your Headtrip's covered warranty!)**.)
2. Open My Computer and click on the Headtrip™ to open a new window. (The Headtrip™ will appear as a removable storage drive, usually drive D, E or higher depending on your system configuration. Regardless of the “letter”, the Headtrip will be shown as a removable storage drive.)
3. Open your MP3 music folder or if you don't already have an MP3 ripper we recommend Free Rip (download online by searching “FreeRip” or search the [www.ThinkCP.com](http://www.ThinkCP.com) site for FreeRipMP3.zip located at <http://www.thinkcp.com/techsupport/driver.asp> )
4. If you are using Free Rip, place your music CD into your CD/CDRW/DVD drive.
5. Choose the songs that you want to transfer to the Headtrip
6. Select RIP at the top of the box, then select RIP to MP3.
7. Click “Finished” when done.
8. In order to transfer the converted “RIP” MP3 files to the Headtrip, just drag and drop your choice of MP3 files in the RIP Window to the Headtrip Window. **REMEMBER TO CLOSE THE HEADTRIP™ ICON BEFORE DISCONNECTING FROM THE CABLE.**
